ARTICLE 4

Resident

(1) For the purposes of this Agreement, the term “resident of Contracting State” means any person who, under the laws of that State, is liable to tax therein by reason of his domicile, residence, place of management or any other criterion of a similar nature. But this term does not include any person who is liable to tax in that State in respect only of income from sources in that State.

(2) Where by reason of the provisions of paragraph (1) an individual is a resident of both Contracting States, then his status shall be determined as follows:

(a) he shall be deemed to be a resident solely of the Contracting State in which he has a permanent home available to him; if he has a permanent home available to him in both States, he shall be deemed to be a resident solely of the Contracting State with which his personal and economic relations are closer (center of vital interests);

(1) For the purposes of this Agreement the term “permanent establishment” means a fixed place of business through which the business of the enterprise is wholly or partly carried on.

(2) The term “permanent establishment” includes especially:

(a) substantial equipment is in that other State being used by, for or under contract with the enterprise for more than nine (9) months; and

(b) it carries on supervisory activities in that State in connection with the use of equipment referred to in subparagraph (a).

(5) Notwithstanding the provisions of paragraphs (1) and (2) where a person - other than agent of an independent status to whom paragraph (6) applies - is acting on behalf of an enterprise and has, and habitually exercises, in a Contracting State an authority to conclude contracts in the name of the enterprise, that enterprise shall be deemed to have a permanent establishment in that State in respect of any activities which that person undertakes for the enterprise, unless the activities of such person of such are limited to those mentioned in paragraph (3) which, if exercised through a fixed place of business, would not make this fixed place of business a permanent establishment under the provisions of that paragraph.

(6) An enterprise of a Contracting State shall not be deemed to have a permanent establishment in the other Contracting State merely because it carries on business in that other State through a broker, general commission agent or any other agent of an independent status, where such persons are acting in the ordinary course of their business. However, when the activities of such an agent are devoted wholly or almost wholly on behalf of the enterprise, he shall not be considered as agent of an independent status if the transactions between the agent and the enterprise were not made under arm's length conditions.

(7) The fact that a company which is a resident of a Contracting State controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

CHAPTER III

Taxation of Income

ARTICLE 6

Income from Immovable Property

(1) Income derived by a resident of a Contracting State from immovable property including from agriculture or forestry, situated in the other Contracting State may be taxed in that other State.

(2) The term “immovable property” shall have the meaning which it has under the law of the Contracting State in which the property in question is situated. The term shall in any case include property accessory to immovable property, livestock and equipment used in agriculture and forestry, rights to which the provisions of general law respecting immovable property apply, usufruct of immovable property and rights to variable or fixed payments as consideration for the working of, or the right to work or to explore for, mineral deposits, sources and other natural resources; ships, boats and aircraft shall not be registered as immovable property.

(3) The provisions of paragraph (1) shall apply to income derived from the direct use, letting, or use in any other form of immovable property.

(4) The provisions of paragraphs (1) and (3) shall also apply to the income from immovable property of an enterprise and to income from immovable property used for the performance of independent personal services.

ARTICLE 7

Business Profits

(1) The profits of an enterprise of a Contracting State shall be taxable only in that state unless the enterprise carries on business in the other Contracting State through a permanent establishment situated therein. If the enterprise carries on business as aforesaid, the profits of the enterprise may be taxed in the other State but only so much thereof as is attributable to that permanent establishment.

(2) Subject to the provisions of paragraph (3), where an enterprise of a Contracting State carries on business in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the profits which it might be expected to make if it were a distinct and separate enterprise engaged in the same or similar activities under the same or similar conditions and dealing wholly independently with the enterprise of which it is a permanent establishment or with other enterprises with which it deals.

(3) In the determination of the profits of a permanent establishment, there shall be allowed as deductions expenses of the enterprise, being expenses which are incurred for the purposes of the permanent establishment (including executive and general administrative expenses so incurred) and which would be deductible if the permanent establishment were an independent entity which paid those expenses, whether incurred in the contracting State in which the permanent establishment is situated or elsewhere.

(4) In so far as it has been customary in a Contracting State to determine the profits to be attributed to a permanent establishment on the basis of an apportionment of the total profits of the enterprise to its various parts, nothing in paragraph (2) shall preclude that Contracting State from determining the profits to be taxed by such an apportionment as may be customary. The method of apportionment adopted shall, however, be such that the result shall be in accordance with the principles contained in this Article.

(5) Nothing in this Article shall affect the application of any law of a Contracting State relating to the determination of the tax liability of a person, including the determination of such liability by the exercise of discretion or the making of an estimate by the competent authority of that State in cases in which, from the information available to the competent authority of that State, it is not possible or not practicable to ascertain the profits to be attributed to a permanent establishment, provided that that law shall be applied, so far as the information available to the competent authority permits, consistently with the principles of this Article.

(6) No profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.

(7) For the purposes of the preceding paragraphs, the profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.

(8) The provisions of this Article shall not affect the provisions of the law of a Contracting State regarding the taxation of profits from the business of insurance.

(9) Where profits include items of income which are dealt with separately in other Articles of this Agreement, then the provisions of those Articles shall not be affected by the provisions of this Article.

ARTICLE 8

International Traffic

(1) Profits of an enterprise of a Contracting State from the operation of ships, aircraft or road transport vehicles in international traffic be taxable only in that State.

(2) The provisions of paragraph (1) shall also apply to profits from the participation in a pool, a joint business or an international operating agency.

ARTICLE 9

Associated Enterprises

(1) Where

(a) an enterprise of a Contracting State participates directly or indirectly in the management, control or capital of an enterprise of the other Contracting State, or

(b) the same persons participate directly or indirectly in the management, control or capital of an enterprise of a Contracting State and an enterprise of the other Contracting State,

and in either case conditions are made or imposed between the two enterprises in their commercial or financial relations which differ from those which would be made between independent enterprises, then any profits, which would, but for those conditions, have accrued to one of the enterprises, but, by reason of those conditions, have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

(2) Nothing in this Article shall affect the application of any law of a Contracting State relating to the determination of such liability by the exercise of a discretion or the making of an estimate by the competent authority of that State in cases which, from the information available to the competent authority of that State, it is not possible or not practicable to determine the income to be attributed to an enterprise, provided that the law shall be applied, so far as the information available to the competent authority permits, consistently with the principles of this Article.

(3) Where a Contracting State includes in the profits of an enterprise of that State, and taxes accordingly, profits on which an enterprise of the other Contracting State has been charged to tax in that other State and the profits so included are profits which would have accrued to that enterprise of the first mentioned State if the conditions made between the two enterprises had been those which would have been made between independent enterprises, then that other State shall make an appropriate adjustment to the amount of the tax charged therein on those profits. In determining such adjustment, due regard shall be had to the other provisions of this Agreement and the competent authorities of the Contracting States shall if necessary consult each other.

ARTICLE 10

Dividends

(1) Dividends paid by a company which is a resident of a Contracting State to a resident of the other Contracting State may be taxed in that other State.

(2) However, such dividends may also be taxed in the Contracting State of which the company paying the dividends is a resident and according to the laws of that State, but:

(a) where the dividends are paid by a company resident of Hungary to a resident of Malta who is the beneficial owner thereof, the Hungarian tax so charged shall not exceed:

(i) 5 per cent of the gross amount of the dividends if the beneficial owner is a company which holds directly at least 25% of the capital of the company paying the dividends;

(ii) 15 per cent of the gross amount of the of the dividends in all other cases;

(b) where the dividends are paid by a company which is a resident of Malta to a resident of Hungary who is the beneficial owner thereof Malta tax on the gross amount of the dividends shall not exceed that chargeable on the profits out of which the dividends are paid.

This paragraph shall not affect the taxation of the company in respect of the profits out of which the dividends are paid.

(3) The term “dividends” as used in this Article means income from shares, “jouissance” shares or “jouissance” rights, mining shares, founders’ shares or other rights, not being debt-claims, participating in profits, as well as income from other corporate rights which is subjected to the same taxation treatment as income from shares by the laws of the State of which the company making the distribution is a resident.

(4) The provisions of paragraphs (1) and (2) shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in the other Contracting State of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such a case the provisions of Article 7 or Article 14, as the case may be, shall apply.

(5) Where a company which is a resident of a Contracting State derives profits or income from the other Contracting State, that other State may not impose any tax on the dividends paid by the company except insofar as such dividends are paid to a resident of that other State or insofar as the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State, nor subject the company’s undistributed profits to a tax on the company’s undistributed profits, even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in such other State.

ARTICLE 11

(1) Interest arising in a Contracting State and paid to a resident of the other Contracting State may be taxed in that other State.

(2) However, such interest may be taxed in the Contracting State in which it arises and according to the laws of that State, but if the recipient is the beneficial owner of the interest, the tax so charged shall not exceed ten (10) percent of the gross amount of the interest.

(3) Notwithstanding the provisions of paragraph (2):

(5) The provisions of paragraphs (1) and (2) shall not apply if the beneficial owner of the interest, being a resident of a Contracting State, carries on business in the other Contracting State in which the interest arises, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the debt-claim in respect of which the interest is paid is effectively connected with such permanent establishment or fixed base. In such case the provisions of Article 7 or Article 14, as the case may be, shall apply.

(6) Interest shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority, or a resident of that State. Where, however, the person paying the interest, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or fixed base in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment or fixed base then such interest shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.

(7) Where, by reason of a special relationship between the payer and the beneficial owner or between both of them, and some other person, the amount of interest paid having regard to the debt-claim for which it is paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such case, the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of this Agreement.

In such case the provisions of Article 7 or Article 14, as the case may be, shall apply.

(5) Royalties shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the royalties, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or fixed base in connection with which the obligation to pay the royalties was incurred, and such royalties are borne by such permanent establishment or fixed base, then such royalties shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.

(6) Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the royalties, having regard to the use, right or information for which they are paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such case, the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of this Agreement.

(2) In the case of Malta, double taxation shall be eliminated as follows:

Subject to the provision of the law of Malta regarding the allowances of a credit against Malta tax in respect of foreign tax, where, in accordance with the provisions of this Agreement, there is included in a Malta assessment income from sources within Hungary the Hungarian tax on such income shall be allowed as a credit against the relative Malta tax payable thereon.

(3) For the purpose of allowances as a credit the tax payable in Hungary or Malta, as the context requires, shall be deemed to include the tax which is otherwise payable in a Contracting State but has been reduced or waived by that State under its legal provisions for tax incentives.

(4) Where the Agreement provides that income arising in a Contracting State shall be relieved from tax in that State, either in full or in part, and, under the law in force in the other Contracting State, such income is subject to tax by reference to the amount thereof which is remitted to or received in that other State and not by reference to the full amount thereof, then the relief to be allowed in the first mentioned State shall apply only to so much of the income as is remitted to or received in the other State.
